PROJECTS

Portfolio Website (Live Link)
- Developed a responsive portfolio using React components, React Icons, and Bootstrap. Showcases personal projects, tools, skills, and achievements.

Furniture Frontend Website (Live link)
- Designed an interactive and responsive website using Bootstrap 5 and custom CSS. Implemented product listings and a modern UI layout to showcase frontend development skills.

Flipkart Clone (MERN Stack) (Live Link)
- Developed a Flipkart-style e-commerce web application using React, Node.js, Express, and MongoDB Atlas with separate user and admin roles.
- Applied JWT-based authentication, product management, cart functionality, and complete order workflows using REST APIs.

Restaurant Management System (Live Link)
- Built a full-stack restaurant management system using React, Node.js, Express, and MongoDB (MERN stack).
- Executed role-based authentication (Admin/User) with secure JWT-based login and protected routes.
- Admin features to add, update, delete, and feature dishes; manage categories; and handle order status updates.
- Designed a fully responsive UI using Tailwind CSS, with modals, dynamic components, and smooth UX.
